

Change of inhaler brand from Clenil Modulite 250 to Soprobe 250

- Your Clenil Modulite 250 has been changed to the brand Soprobe 250.
- This inhaler works in the same way as Clenil and contains the same medication (beclomethasone) at the same strength.
- The new device is a different colour it is red/brown with a grey cap.
- Some Clenil inhalers have a dose counter however Soprobe does not come with a dose counter. If it is important to you to have a dose counter please speak to the practice.
- You should notice no difference in the management of your condition.

Your current inhaler looks like this:

Your new inhaler will look like this:
